CAREER SUMMARY

Aspiring **Data Analyst** and Computer Science undergraduate with hands-on experience in **data analysis, exploratory data analysis (EDA), reporting, and data storytelling** through industry-recognized job simulations. Proficient in **Python, Excel, and SQL fundamentals**, with ongoing learning in **data visualization tools (Power BI / Tableau)**. Strong interest in transforming data into actionable business insights.

TECHNICAL SKILLS

Data Analysis & BI

- Exploratory Data Analysis (EDA)
- Data Cleaning & Preparation
- Business Reporting & Insights
- Data Storytelling
- Risk Profiling & Predictive Analysis (basic)

Tools & Technologies

- **Python** (primary – data handling & analysis)
- **SQL** (basic – SELECT, WHERE, JOIN concepts)
- **Microsoft Excel** (basic – formulas, data analysis)
- **Power BI / Tableau** (currently learning)

AI & Analytics Exposure

- AI-assisted data analysis
- Predictive delinquency modeling (conceptual & practical exposure)
- Prompt-driven analytical workflows

Soft Skills

- Analytical thinking

- Problem-solving
- Presentation & communication
- Team collaboration

PROJECTS

GenAI-Powered Data Analytics Job Simulation (Forage)

- Conducted **exploratory data analysis (EDA)** to identify risk patterns and business trends.
- Worked on **delinquency prediction using AI-driven insights**.
- Developed **business reports and dashboards** focused on collections strategy.
- Applied **data storytelling techniques** to present insights to non-technical stakeholders.
- Simulated real-world **AI-driven decision-making in financial collections**.

Data Analytics & Forensic Technology Job Simulation (Deloitte – Forage)

- Analyzed datasets to support **forensic and investigative decision-making**.
- Applied structured **data analysis techniques** to uncover insights.
- Strengthened understanding of **data-driven business problem solving**.
- Practiced professional documentation and analytical reporting.

RepoAI – AI-Powered Repository Evaluation Tool

- Built a Python-based system to analyze structured data from GitHub repositories.
- Performed **data extraction, cleaning, and structured insight generation**.
- Designed logic to summarize repository health and quality metrics.
- Strengthened skills in **analytical thinking and automated reporting**.

CERTIFICATIONS

- **GenAI Powered Data Analytics Job Simulation – Forage** (Jan 2026)
  Focus: EDA, predictive analysis, business reporting, data storytelling

- **Data Analytics Job Simulation – Deloitte (Forage)** (Jan 2026)
  Focus: Data analysis, forensic technology, analytical reporting

---

EDUCATION

Bachelor of Technology (B.Tech)
Computer Science & Engineering (AI & ML)
Bansal Institute of Engineering and Technology | **2023 – 2027**

Intermediate (ISC Board) – 2023 | **88%**
High School (ICSE Board) – 2021 | **87.5%**

ACHIEVEMENTS & ACTIVITIES

- 2nd Prize – PPT Presentation (Inter-Department Event)
- Participant – GitGrade Hackathon
- Participant – BuildWithAI Hackathon
- Certificate – Poster Making Competition
